

CMHC'S MULTI-UNIT INSURANCE SERVICING

WHO WE ARE

CMHC's Multi-Unit Insurance Servicing exists to assist lenders from the moment a loan is fully disbursed to providing default management advice and approval, as well as the administration and application of insurance servicing policies and guidelines.

The team provides best in class service and support to Approved Lenders on insured mortgage matters throughout the life of the loan.

WHAT WE DO

- Provide guidance to Approved Lenders on post-IAD (interest adjustment date) matters throughout the duration of the Certificate of Insurance (COI) and authorize changes to the COI conditions that require CMHC's approval as per the Handbook.
- Work with Approved Lenders and mortgage professionals to find solutions for all types of multi-unit properties in financial difficulty.
- Provide guidance and authorization to Approved Lenders in the undertaking of remedial actions addressing loan default situations, including the efficient disposal of properties, in order to prevent and minimize losses and manage risk.

HOW WE CAN SERVE YOU

Reporting loans in default in a timely manner is essential. This allows CMHC to work with the Approved Lender in managing the default and identifying workout opportunities. It also allows CMHC to anticipate the level of claims and resource requirements. Failure to report arrears on insured loans may result in a loss of interest in the event of a claim. Approved Lenders are required to report arrears to CMHC.

Approved Lenders are required to report loans in arrears to CMHC no later than 1 month and 15 days from the date of default. Please use the Report of Loans in Arrears for Multi-Unit Properties form (CMHC Form 19-E) and submit to CPCdocs@cmhc-schl.gc.ca.

CONTACT US

The Handbook for CMHC Lenders should be consulted in all cases before contacting CMHC as it provides guidance on many of the above matters, and sets out instances where the lender can act without CMHC intervention.

Inquiries for all of the above-mentioned activities must be sent to:
