Membership in Associations

The following is a List of Associations which may create a conflict of interest in your role either within the organization or simply due to the fact that you are a CMHC employee. This is not an exhaustive list but rather a reference tool of the types of associations and / or organizations where there is a real, potential or apparent conflict of interest including arising from **(a) financial or other supporting and (b) lobbying**.

| | |
|----|---|
| a) | <p><u>Financial or Other Support:</u> Associations where CMHC would be involved in:</p> <ul style="list-style-type: none"> • Granting funds • Financially supporting research undertaken by this association • Providing any resources for research or other activities undertaken by this association |
| b) | <p><u>Lobbying:</u> Associations where their President or Vice President would be participating in lobbying activities linked to CMHC's role and responsibilities.</p> |

Taking this information into consideration, when trying to determine if there is a conflict of interest regarding financial, supporting of research or lobbying, you may ask yourself, if there could be a perception that the Association(s) you are a member of would benefit from any type of information received from a CMHC employee. If you have any doubt, you are encouraged to speak to your immediate supervisor to discuss the situation. Remember, **in cases where a conflict may exist, full disclosure to CMHC is required.**
