

# Progress on the National Housing Strategy

JUNE 2024

Canada's National Housing Strategy (NHS) sets a long-term vision that focuses on improving housing outcomes for those in greatest need.

Launched in 2017, the NHS is currently a 10+ year, \$115+ billion plan to give more people in Canada a place to call home.

The NHS consists of complementary housing programs and initiatives that aim to address needs across the housing continuum, prioritizing Canada's most vulnerable populations.

Progress on the programs and initiatives under the Strategy are updated quarterly or as available.

Building on the achievements of the National Housing Strategy, the Government of Canada introduced *Solving the Housing Crisis: Canada's Housing Plan*<sup>i</sup> in April 2024. Canada's Housing Plan sets out an ambitious plan to tackle the most urgent challenges facing our housing system today, broadening and intensifying the Government of Canada's efforts to build more homes, make it easier to rent and own a home, and help Canadians who can't afford a home.

## How progress is tracked

Canada Mortgage and Housing Corporation tracks and reports on progress at four different phases.

1. **Conditional Commitment** is when funding is earmarked to support the building or repair of units for which formal project agreement is still subject to final approvals and conditions (Letter of Intent is signed). As conditional commitments are subject to final approval, funding and units reported may fluctuate each quarter.
2. **Financial Commitment** is when a formal agreement is duly executed and a binding agreement is reached to provide credit under pre-specified terms and conditions (Letter of Agreement is signed).
3. **Construction/Repair Underway** is when units are in the process of being built or repaired. For FLI, which provides funding to transfer surplus federal lands and buildings to support the development of housing, this includes units under development. FLI projects are considered under development once land transfer has occurred.
4. **Completed** is when units are built or repaired.

### Construction Timelines

Construction takes time – it can take years for planning, permitting, site preparation and design for a project to come to fruition. The completion of a new construction or renovated multi-unit housing project can take up to 3 years after the funding is provided.

Funding under the National Housing Strategy can be delivered over several years – extending the time to complete a housing project. See the [Road Map for Building a New Home](#)<sup>i</sup> for more details.

## How progress is tracked

Progress is tracked once reporting on progress related to funding commitments from provinces and territories has been received and processed.

## Federal/Provincial and Territorial NHS Initiatives

**Canada Community Housing Initiative:** provides predictable, long-term funding to protect, regenerate and expand social and community housing, including social housing under legacy programs for urban Indigenous households in need.

**PT Priorities Housing Initiative:** supports regional needs and priorities, such as increasing the affordable housing supply, maintaining existing stock, and providing financial support to vulnerable Canadians.

**Canada Housing Benefit:** provides affordability support directly to households in need through programs co-developed with each PT to reflect their unique context and circumstances.

**Northern Funding:** helps address the unique needs and challenges faced in the North with additional funding for each of the three territories to enhance the other initiatives.

## Joint Funding Commitments

Initiative	Total Funding Allocation until 2027/28	Federal Funding Committed <sup>3</sup>	P/T Funding Committed <sup>3</sup>
Canada Community Housing Initiative	\$8.6 billion	\$1.074 billion	\$1.019 billion

Northern Funding <sup>2</sup>	\$300 million	\$180.00 million	N/A

<sup>1</sup> Includes funding for Survivors of Gender-Based Violence, where amended agreement was announced or NHS Bilateral Agreement Action Plan is published.

<sup>2</sup>Northern Funding does not require Territorial cost-matching.

<sup>3</sup>Funding Committed is based on claims submitted by PTs as of March 31<sup>st</sup>,2024. These are active claims and subject to change if claim revisions are submitted by PTs.

## National Housing Strategy Support to Affordable and Community Housing

### **National Housing Strategy Support to Affordable and Community Housing**

NHS initiatives are designed to meet the housing needs of Canadians. These initiatives provide support to the entirety of the housing continuum, an approach that builds upon and complements the historical federal support for community (social) housing that serves Canadians in deepest housing need.

This new approach significantly increases support to the community housing sector through new supply programs such as the Affordable Housing Fund, the Federal Lands Initiative, the Affordable Rental Housing Innovation Fund, and the Co-operative Housing Development Program, as well as through the Rapid Housing Initiative which has now sunset.

The approach also includes direct support to tenants and through housing providers to help reduce affordability pressures. This builds on support for legacy social housing agreements which were predominantly signed with housing providers between the 1950s and early 1990s, and includes new funding. New funding is being made available under the Federal and Canada Community Housing Initiatives to providers whose legacy agreements are expiring to ensure that they have the necessary support to continue offering community housing to Canadians.

In addition to these initiatives, the NHS is also creating new purpose-built market rental housing through the Apartment Construction Loan Program, building supply and providing more housing options along the housing continuum.

The NHS provides assistance to households in need through affordable and community housing, figures for this will be available shortly as we work with Provinces and Territories to provide an update.
